

THE INTERIOR JOURNAL

Established 1860—58th Year. No. 35

Stanford, Lincoln County, Kentucky, Tuesday, May 1, 1917

TO THE DEMOCRATS OF LINCOLN COUNTY:

Some three months ago I announced myself a candidate for the office of County Attorney. At the time I did so I believed that Mr. Burch, the present incumbent, would not be a candidate to succeed himself; first, because he has held the office three terms, and second, because of his ill health, as it is a well known fact that he has been physically unable for nearly a year to attend to the duties of the office and another had to fill the position at an extra expense to the County.

I was reliably informed at the time of my announcement that Mr. T. J. Hill, Sr., father of T. J. Hill, Jr. would soon announce for Sheriff and that would naturally have prevented, from a political standpoint, his son from being a candidate for County Attorney. However, only a few days ago Mr. Hill, Sr., announced finally he would not run for Sheriff and his son then announced for County Attorney.

Mr. Burch and Mr. Hill both have a right to run, but I want the voters to understand under what circumstances I entered this race.

I wish the voters furthermore to understand that if I am elected I shall oppose the acceptance of State Aid for pikes as it is undoubtedly too expensive for the amount of our revenue, and is also unfair to pikes in different sections of the county where by law the use of the State Aid is forbidden.

The pikes just recently remodeled, cost as I am informed, about three thousand dollars per mile and in the construction of these roads there now remains a large deficit, which must be paid out of the road fund this year, leaving only about \$7,000 to be used for pike and dirt road purposes this year. This will not by any means even repair the pikes that are in dire need at present of work and of necessity, in another year will be in a dreadful condition. I favor good roads and believe that they are essential to the prosperity of our county, but I do oppose a system which will bankrupt our county to build a few miles of pike and at the same time let the remainder of the pikes become impassable.

I shall advocate before the Fiscal Court of our county the building of good serviceable and durable roads all over the county as far as your revenue will permit, but I shall oppose exceeding the revenue for any year as our highest Courts have held should not be done. I shall advise an equitable and fair distribution of the road fund over the entire county.

I am in favor of improving all of our dirt roads and paying for hands and teams as liberal wage and hire as the revenues of the county will permit.

I have always voted for local option every time the question has been submitted since I have been a voter, and in regard to the violation of the local option laws, I shall prosecute them and every other violation of the law to the fullest extent without showing any favoritism.

I feel that my experience as Commonwealth's Attorney for eleven years and County Judge for a period of two years of this county has qualified me for the position which I seek. During my term as Commonwealth's Attorney I was only absent three days during the entire period and this record should prove to you that I was faithful in the discharge of my duty and never shirked.

I shall endeavor to see each voter personally before the election and appeal to you to elect me to this office.

Yours, respectfully,
J. S. OWSLEY.

MARRIAGES

William Estes, a well-known Gardner county farmer, and Miss Odesse Young, of Lancaster, were married last week.

Edgar Sandlin and Miss Nola Vice surprised their many friends last Saturday afternoon by repairing to the home of D. F. Wallace, where they were united in wedlock's holy bonds.

The marriage of Miss Marguerite Camp to Mr. J. Briscoe Harmon will take place at the home of the bride's parents, Mr. and Mrs. S. C. Camp at Perryville this afternoon. The following young women will be attendants: Misses Elizabeth Bruce, Hallie Harbison, Ovie Powell, Samantha Carpenter, Lora Parks, Gertrude Green and Katherine Camp. Mr. P. H. West will be the best man. The bridesmaids will be attired in the colors of the rainbow.

A SYMBOL OF HEALTH
The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.

RIDE WITH HARRY WEST.
Harry West has bought a brand new Ford touring car and invites his friends to ride with him when they want good auto livery service. Call him by phone when you want to go anywhere. He will take you in a hurry and bring you back the same way.

WIND DAMAGES WEST END.
The wind of Monday afternoon did considerable damage in the West End of the county. A number of trees and fences were blown down and Squire W. M. Field's silo on the T. L. Carpenter farm was destroyed together with a lot of feed.

SOME FISHERMEN ARE THESE.

Mike Penny is Stanford's boss fisherman. He caught a six-pound big mouth bass while fishing in the water works lake Saturday morning, which was probably the prettiest fish ever taken from that water. It was on exhibition at The Penny Drug Store that morning and attracted almost as much attention as a circus would have. Mr. Penny encountered some difficulty in landing the big fish, but he finally made it and was well repaid for the energy spent in doing so.

Mr. Bright Lands Good One.
Cashier W. M. Bright, of the Lincoln County National Bank, is some fisherman himself. He landed a four-pound big mouth bass out of the pond on his place the other day, and it wasn't a good day for fishing, either.

Frank Rout Gets His.
B. Frank Rout, manager of the Stanford Water, Light & Ice Co., took a few moments from his duties the other day and caught one fish weighing 4 1/4 pounds and another weighing a little more than five pounds.

If you want to catch the Big Ones, use our Tango, Baby Crab or Tandem Spinners. The Penny Drug Store.

STICK TO YOUR PROMISE

Some complaint is made by the Woman's Club ladies that there are those who signed an agreement to take Chautauqua tickets and are declining to do so, giving various excuses. This is not as it should be. Every good citizen wants to make his word as good as his bond, and will do so in little as well as big things. The signing of the cards given out at the wind-up of the Chautauqua last year is a direct contract and those who signed them could be made to take the tickets they agreed to, but of course, the ladies do not propose to go to court about such a matter. The Woman's Club has obligated itself to pay the Chautauqua people a certain amount and they will have to do so. The Club is bringing the attraction here as much for your pleasure and entertainment as for its members. Don't let your failure to make good your obligation get them in a hole, but on the contrary do as you promised and begin now to boost the Chautauqua. Tell your friends about it and make your arrangements to go from May 27 to 31, without missing a single attraction.

THROWS CHILD OUT OF CAR.
A girl, between 16 and 17 years old, who afterward proved to be a Miss Barrett, of Jackson county, last week on the charge of killing her baby, about a month old. She boarded the train at Wildie, Rockcastle county, with her baby in her arms, and when passing through a tunnel between Wildie and Sinks, threw the little thing out of the car window. The track walker, who happened to be only a short ways behind the train, found the infant and taking it to a home nearby, tried to resuscitate it, but its little light went out and all was over with the unfortunate child. Officials of Rockcastle county were notified and Miss Barrett was followed to Artemus, and brought back to the county of her crime. The Rockcastle grand jury was in session at Mt. Vernon, and she was taken before it, and it is understood that at her trial she was given a term of three or four years in the Reformatory. Her extreme youth saved her from a severer sentence.

'Chamberlain's Tablets Have Done Wonders For Me'

Y. "Chamberlain's Tablets have done wonders for me and I value them very highly." Obtainable everywhere.

WOMAN'S CLUB LADIES BUSY.
The members of the Woman's Club are as busy as bees just now. They have on their hands the Chautauqua, May 27 to 31, inclusive, and the oiling of the streets. While they are putting in every lick possible for the Chautauqua, they realize that it is urgent to have the streets oiled and a committee is canvassing the town for money with which to help pay for the oil and putting it on.

The city council will help pay this expense, but its members did not feel that the treasury was sufficiently well filled to do the work alone, hence the good women came to the rescue of the people generally and soon the dust nuisance will be abated. Oil is an absolute necessity, as has been conclusively proven, and it is nothing but right that those who get advantage of it should pay for it. Therefore when the ladies call on you to help finance the laudable move, do the best you can for them.

Dust is objectionable from every standpoint and it is quite as unhealthy as it is disagreeable. For a few dollars we can rid ourselves of the nuisance. Do you know of a better investment?

His many friends regret his stroke of bad luck.

The Committee on Athletic Conditions in the State, of which Supt. W. C. Wilson was a member, made its report in which, was suggested that a State High School Athletic Association be formed. At the close of the meeting of the High School Department this suggestion was accepted, and such an association was formed, composed of the schools of Lexington, Louisville, Owensboro, Henderson, Paducah, Hopkinsville, Morganfield, Carrollton, Somerset, Mt. DR. O'BANNON FOR REPRESENTATIVE
Dr. W. B. O'Bannon, chairman of the democratic county committee, a physician of much prominence, a good citizen and a democrat in whom there is no semblance of guile, announces the issue his candidacy for Representative in the General Assembly. The doctor cast his first vote in 1876 when he lived in Missouri, but moving to this county in 1883, he has been voting under the roster with this people since. Dr. O'Bannon first moved to Kings Mountain, where he practiced his profession for ten years, and from that place came to Stanford, where he has resided since. He knows pretty nearly every person in the county, is liked by them all and the news that he has decided to make the race for Representative will be received with delight by his friends in every nook and corner of the county. "By Joe" will be a hard man to beat; it matters not who is in the race or who may enter later on.

AN UNFORTUNATE ACCIDENT
The horse driven by Mrs. Sophie Zurbrugg and niece, Miss Bertha Uhlman, scared at the auto driven by Mr. and Mrs. T. W. Jones on the Somerset pike near town Friday afternoon and ran away. The girl was thrown out of the vehicle and sustained a broken ankle, which it is feared will render her a cripple. Mrs. Zurbrugg very fortunately remained in the spring wagon and only received a sprained wrist and a very bad shake-up. The two were cared for by Dr. Southard and were later taken by Mr. and Mrs. Jones to their homes.

The horse was considered an unusually gentle one and had frequently gone by autos without showing signs of fear. This time the animal seemed to have gone wild. No blame whatever can be attached to Mr. Jones, who with his wife did everything possible to alleviate the pains of the ladies and saw that they were landed safely at home.

Miss Uhlman has been brought to Dr. E. J. Brown's sanitarium and is said to be getting along fine.

MANGLED BY LIGHT ENGINE
Fred Ballard, aged about 35, was run over and killed by a light engine on a short cut of the bridge near Brodhead Friday night. His body was fearfully mangled. He was seen late that night in an intoxicated condition and it is supposed that he fell on the track. Blood on a light engine was discovered on its arrival at Livingston and this caused an investigation. John Nevius, of the city, who is a flagman, discovered the body as his North-bound freight was pulling out of Brodhead early Saturday morning. Ballard was a son of Jack Ballard, for many years a resident of Brodhead. He left no family.

THE AMERICAN

An American oil tanker Vacuum, on the bottom by a German submarine and it is feared that an American naval Lieutenant and some of his gun crew of nine men perished in the disaster. The captain and several of the crew of the Vacuum are known to have been drowned. While returning to the United States from a trip to Europe the Vacuum encountered off the coast of Ireland the submarine which gave her a death wound. Scant details of the sinking are available and it is not known whether the Americans were able to bring their guns into play or if the vessel was torpedoed and sunk unwarned.

In a powerful attack in the Champagne region the French troops captured several fortified lines of trenches in the neighborhood of Mont Carnillet to a depth of 500 to 1,000 yards, according to the War office report.

The three-mile stretch of territory from Arleux-en-Gohelle to Gavrelle is still the scene of great battles for supremacy between the British and the Germans. Another trench system a barrier to the forward march of Field Marshal Haig's forces toward Douai—has been taken over a front of a mile in most sanguinary fighting. The new position lies south of Oppy and runs almost to the outskirts of Gavrelle. Berlin has admitted the loss to the Canadians of Arleux-en-Gohelle and to other parts of Field Marshal Haig's army at Oppy and positions near Gavrelle and Roex, which are characterized as "advanced positions." The German War Office adds, however, that except for Arleux all positions were regained and that the British suffered extraordinary heavy losses. Since the recommencement of the offensive Saturday the number of prisoners taken by the British has materially increased, nearly 1,000 Germans having been sent to the prisoner cages back of the fighting line up to Sunday evening.

Both Senate and House voted approval of the Administration's proposal to raise a great war army on the principle of selective conscription, voting down by overwhelming majorities volunteer army amendments around which opponents of the Administration plan had centered their fight, and passing the Selective Draft Bill without material change in the more important provisions written into it by the army General Staff and approved by the President. The vote in the House was 279 to 24 and in the Senate 81 to 8.

The British and French war missions rededicated their united efforts to democracy Sunday in impressive ceremonies at the tomb of George Washington at Mount Vernon. A wreath was placed on the tomb by Arthur James Balfour as a tribute from England, and France through former Premier Viviani and Marshal Joffre accorded to the Father of the American Republic the highest honor within the gift of France by placing a bronze palm leaf on his final resting place.

The expectation in Peking is that China within two weeks will declare war on Germany. Already a special Commission for International Affairs has advised the Government that China should take her place beside the United States and the Entente Allies as an antagonist of Germany, and Parliament is soon to decide finally the question of China's participation.

The bill being drawn by a subcommittee of the Ways and Means Committee designed to raise \$1,500,000,000 additional taxes per year for war purposes would lower the exemptions on incomes to \$1,000 for single men and \$2,000 for married men. Increased taxes on whisky, beer, cigars, cigarettes and tobacco and new taxes on automobiles, amusements, soft drinks and various kinds of stamp taxes are proposed. Opposition to features of the measure is arising, it is stated.

It is the hope of France and the dread of Germany that the United States flag will soon fly in the trenches of France, according to a statement made by Marshal Joffre to American newspaper men. The soldiers of the two republics fighting shoulder to shoulder can hasten the end of the war, he declared.

The Army Draft Bill, passed Saturday by both houses of Congress, will come up today for reformation. It is possible final action may be delayed by La Follette and others in attempts to attach amendments.

In the first two months of unrestricted warfare the Germans destroyed 1,600,000 tons of shipping, according to a statement made before a Reichstag committee by Dr. Karl Helfferich.

Kentucky has raised only 884 men of its quota of 4,578 in the army, while Indiana has enlisted 2,712, of her quota of 5,400.

The German casualties at Arras are placed at 200,000 by the Paris war report.

CAUGHT THREE "SHINERS"
Deputy Collector H. Rowan Sauley is back from Harlan county, where he went with Deputy U. S. Marshals C. L. Winfrey, Morton Ford and Stanton H. Thorpe, in search of moonshiners. They were successful in capturing three—White Cox, his son, Granville Cox, and Cyrus Politt. They also arrested Mildred Lee, who wanted on the charge of bootlegging. The latter will face the additional charge of using threatening language toward and cursing President Wilson. The quartet was brought to Pineville where they were taken before Commissioner Inman, who held them over to Federal court. A good-sized still was destroyed on the raid, which was full of interesting incidents to our townsman.

Mississippi Farm Lands For Sale Good Quality—Terms Easy

A trip through different sections of the State of Mississippi and an observation of agricultural conditions there has convinced me that it is the place at the present time to secure the best land values at the lowest prices—from \$5 to \$50 per acre, some of them near a city, with six trunk line railroads, and as large as Lexington, Kentucky, where lands are selling at \$300 per acre—by those seeking homes or investments in good farming lands.

Believing that it would be of mutual advantage and profit to those seeking homes or investments in farming lands, at lower prices than are possible in this section of Kentucky, where land values have advanced beyond the reach of the farmer of moderate means, I have associated myself with several responsible gentlemen in the state of Mississippi and am in position to offer some very attractive propositions to those seeking investments of this character, on easy terms, aided by the "Federal Farm Loan Act."

These lands, due to the short winter season, and long grazing periods are especially adapted to stock raising and diversified farming; are well located as to churches, schools, shipping points and markets; are situated on improved highways and are well watered, either by streams or artesian wells.

Almost every character and kind of crop that can be raised in Kentucky can be raised profitably in Mississippi.

Cheap railroad rates for home-seekers can be obtained by those desiring to look the situation over. I shall be pleased to give further information to any one who is sufficiently interested, that will call to see me or write to me at Stanford. HARVEY HELM.

THE FOLLOWING IS A BRIEF DESCRIPTION OF A FEW TYPICAL TRACTS OF LAND FOR SALE:

No. 3.—1675 acres, two miles from Capital, 700 acres under cultivation, balance fine pasturage, running springs, large dwelling but in need of repair, with probability of pike passing immediately in front of it. Price \$15.00 per acre.

YES! LIFT A CORN OFF WITHOUT PAIN

Cincinnati Authority Tells How To Dry Up A Corn Or Callus So It Lifts Off With Fingers

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn, or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

TEDDY USES THE PHONE

Ernest Anderson, of Nicholasville, by letter tendered his services to Col. Roosevelt for war against Germany. A few days later Teddy called him over long distance from Oyster Bay and had a lengthy talk with him. He informed Mr. Anderson that he was sure that he would be needed and to hold himself in readiness.

The Kentucky automobile license law is constitutional, the Court of Appeals said in an opinion by Judge Hurt, affirming the Boyle Circuit Court in the case of G. Murray Smith, who refused to register his automobile and secure a State license for the purpose of testing the law. He was found guilty, and fined and appealed the case.

All previous high records in the history of the United States Steel Corporation, both as to earnings and dividends, were surpassed in the first quarterly report for the year. Earnings reached the enormous total of \$113,121,018, more than the corporation has earned in a whole year in some instances.

American staff officers oppose vigorously any suggestion that a small expeditionary force be sent to Europe for its moral effect. They want time to have the army well trained and adequately equipped so that when the time comes for sending men their weight will be immediately felt.

Hope that any of the 120 men entombed in the Hastings mine, near Trinidad, Col., may be rescued was abandoned by rescue crews, when it was found that the men were caught behind a wall of fire which followed an explosion in the main workings of the mine.

FOUR KILLED IN HOUR

Four children, whose parents live at Salt Lick, near Owingsville, were killed within an hour Thursday. The three-year-old daughter of Lacy Ingram, fell into boiling water, the 4-year-old son of Charles Swimm was drowned in Triplett creek; the six-year-old daughter of John Jago was burned to death in a brush fire and the nine-year-old son of George Grayson was kicked by a horse.

For the first time in the history of the Baltimore & Ohio railroad, a solid train of thirty-six cars is on its way East from the West loaded with onions. There has been a scarcity of onions in the Eastern markets and record prices are being paid.

HERE'S PATRIOTISM

Some patriotic American with a fortune in excess of \$64,000,000 has paid his income tax six weeks in advance, thereby losing \$3,750 in interest, says a New York dispatch. The taxpayer's name is withheld in accordance with the law, but the fact that he had handed a check for more than \$500,000 to the collector of internal revenue there, was made public Friday.

Ability to sit and "look an alien enemy in the face while hearing the Star Spangled Banner and yet give him a fair trial was demanded of a salesman in the trial in New York of Capt. Franz Rintelen, of the German navy.

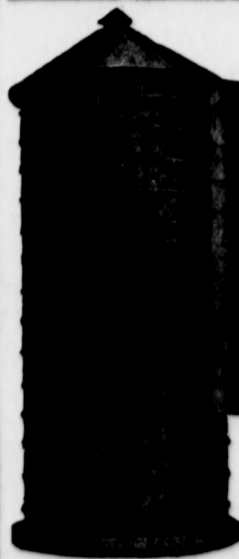

Get at The Source of Your "Skin Diseases"

Don't be misled by this term, for the appearance of pimples, boils or rashes indicate something more serious than a mere "breaking out" of the skin. These eruptions are, in reality, signals from nature that the blood is impoverished, debilitated and in need of help. Of course you can sometimes drive away the infected places by applying a salve or lotion, but unless you treat them through the medium of the blood, they will occur again and again.

S. S. S. has proven its wonderful

building and tonic properties in thousands of cases arising from disorders of the blood. It washes the poisons from the system and aids the blood in its work of cleansing and invigorating the body organs, throwing off waste matter, and keeping the body in a normal, healthy condition.

Prove these facts for yourself by taking a bottle of S. S. S. and write to our Medical Department for information about your case. Swift Specific Co., 304 Swift Building, Atlanta, Ga.

Farmers don't you think right now is the best time to raise draft horses? The price was never higher than now, and our supply of work horses is at the lowest point it has been for years.

There are not more than half as many brood mares in the county now as there were five years ago. You can see that we are facing a horse famine. What are you going to do about it? Autos and auto-trucks are all right, but you can't farm with them. You can't raise colts from your mules. It looks like the most sensible and business-like thing to do is to raise some good draft colts before your old brood mares are gone.

I offer for public service the champion draft stallion, Voltaire. He has proven himself to be one of the best breeders this county has ever known. He will make the season at my place on the Danville pike, one mile from Stanford at \$15 to insure a living colt; season due when colt is foaled or mare parted with. Will not be responsible for accidents should any occur.

KENTUCKY GENTLEMAN 5167
By Chester Peavine 3184 by Rex Peavine 1796 by Rex McDonald. First dam Flora Carter 8419 by Red Squirrel 53 by Black Squirrel.

I don't suppose there is a better bred horse in Kentucky than Kentucky Gentleman. He has been one of the most successful horses in the show ring that this county has produced in years. He is just the right size for a saddle horse and his first colts which are four years old now

are showing the saddle gait nicely. The auto has put the light driving tent, but you don't have any trouble in selling a saddle horse.

I am going to offer the services of this great horse at the extremely low price of \$15 to insure. I am giving you for \$15 what most men would charge from \$25 to \$40 for.

Do you appreciate it? If so send your best mares to the court of Kentucky Gentleman and let him get you a nice colt.

LINCOLN CHIEF 6393

Sired by Kentucky's Choice, he by My Own Kentucky, by Chester Dare 10, by Black Squirrel 58. Lincoln Choice's dam Trixie Quick 8855, was by Eagle Bird 1014, he by King Eagle.

Lincoln Chief is a coming four-year-old and expert horseman say he is sure to be the coming champion. He will make the season at my barn on the Hustonville and Danville pike at

\$10 to insure a living foal.

Those who have mares should see this fellow before they breed. He has been a heavy winner since he was a colt and is better today than he ever was. Not responsible for accidents. Breeding to other stock or trading off mare forfeits insurance.

AT HIS POST OF DUTY

Our old friend, Harvey Helm, is at his post of duty in Congress, standing flat-footed with the President and looking after the interests of his constituents. Harvey is never too busy to attend to the business of his constituents. Although in Congress for many years, he has never become puffed up with the idea that he is the whole cheese, and the voters back home small potatoes with few in a hill. He realizes that his time belongs to the people of his district—that he is the servant and not the master. That is one of the reasons he has retained his seat in Congress for so many years. Another is that he attends to business and never forgets the fact that the people sent him to Washington to represent them. He is unlike some roosters we know, who pump you full of hot air while candidates then tell you to go to the devil after the election.—Danville Messenger.

TRAINING CAMP AT BEREA

A miniature military training camp has been established at Berea College, according to President William Goodell Frost. The 1,600 students enrolled at the institution are taking a deep interest in the subject of military training. A number of them have enlisted and practically all of the others are drilling on the campus. Each of the five departments of the institution, including the college, normal, academy, vocational and foundation has its own company. In referring to Berea's relations to the country's preparation for war, President Frost states: "The students of Berea College, coming from all parts of the mountain regions of the South, represent the best fighting stock in America. They were with Jackson at New Orleans and fought in the Civil War. The mountaineers have many representatives in the navy."

FACTIONS CLASH IN WHITLEY

The Republican primary campaign in Whitley county is already at a white heat, with the Finley and Snyder factions battling for supremacy. There are sixty-five candidates for the various offices, and every race has a big field of starters. Six are in the field for County Judge, E. G. Massingale, John W. Prewitt, J. S. Lay, A. J. Silcox, John Lewallen and J. W. Powers, who are waking up the natives. The same is true in the contest for Sheriff, in which there are also a half dozen entries, William Harp, Hugh Johnson, Henry M. Young, G. W. Patrick, C. W. Renfro and Sam W. Brummett. Nineteen Whitley county Republicans are after the nomination for Jailor.

DOUBT DISAPPEARS

No One in Stanford Who Has A Bad Back Should Ignore This Doubt-Proof

Does your back ever ache? Have you suspected your kidneys? Backache is sometimes kidney ache. With it may come dizzy spells, Sleepless nights, tired, dull days, Distressing urinary disorders. Doan's Kidney Pills have been endorsed by thousands. Are recommended here at home. You have read Stanford proof. Read now the Stanford sequel. Renewed testimony; tested by time.

J. T. Barnett, carpenter, Lancaster St., Stanford, says: "My work as a carpenter calls for heavy lifting at times. This weakened my kidneys and caused attacks of lumbago. I had a severe ache across the small of my back which often got so intense that I was unable to work. I used many kidney medicines but I must give the praise to Doan's Kidney Pills as the first remedy to give me lasting relief. Since using Doan's Kidney Pills I have been in good health." (Statement given March 21, 1908.)

On November 14, 1916 Mr. Barnett said: "Doan's Kidney Pills have done me a great amount of good. I recommend this medicine at every opportunity." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Barnett has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

DANGERS REAL AND FANCIED.

The average woman will scream with terror at the sight of an innocent little mouse, and then complacently sit down and suffer in silence with diseases that are destroying her youth, her beauty, her very life.

She will unconsciously resign herself to the woes and miseries of female troubles, which are to be dreaded a thousand times more than a tiny mouse. It is gratifying to know that untold numbers of women are being restored to perfect vigor and strength by Dr. Pierce's Favorite Prescription. It benefits uterine disorders. The exact name of the disease doesn't amount to a row of pins. If it is in the womanly organs, "Favorite Prescription" will hunt it out and benefit it. It can be a drain, a pain, an inflammation, an irregularity or a weakness, and this medicine will act as a true tonic and help restore the organs to healthy action. It prepares the girl to become a woman, the wife to become a mother, the middle-aged to pass the "turn of life" in safety. It is not a "cure-all" but a medicine for women only, and is the prescription of Dr. Pierce, Buffalo, N. Y., the world-famed specialist in the treatment of disorders of women. Any reader of this paper may consult Dr. Pierce free by mail.

Covington, Ky.—"I had 'Favorite Prescription' recommended to me. I had to overcome some conditions of nervousness and was run down. When I began using 'Favorite Prescription' I lacked ambition and strength. I used two bottles and it proved a strengthening and in every way beneficial medicine."—Mrs. MOLLIE KENTON, 1338 Greenup St.

GO-TO-SUNDAY-SCHOOL-DAY

When Robert Raikes started the first Sunday school at Gloucester, England, in 1780, he builded wiser than he could have known, for ever since the Sunday school has been a most potent factor for good everywhere it is observed. Indeed it is regarded as the nursery of the church, as from it so many children grow to be worthy christian men and women. It is a wonderful institution upon the lives of all who embrace its opportunities to study the Bible and learn the way to eternal life. It is a pleasure to note that attendance upon these schools has been steadily growing under the splendid work of the Kentucky Sunday School Association, non-denominational in its make-up, with each member striving to do the most good for the greatest number. For several years past this association has designated a special Go-To-Sunday-School-Day, the one of last year drawing over a million people to the Sunday schools.

Next Sunday, May 6th, has been named for this year's effort to increase attendance, when it is hoped that all records will be broken. There is nothing so conducive to strong christian character as systematic study of the Bible and there is no agency equal to the Sunday school for it. You who have never enjoyed the influence of a Sunday school should make it a point to attend next Sunday, when we are sure you will find an incentive to go again and make up for what you have missed. In addition to learning the depth and meaning of scripture you will see a host of consecrated men and women, who Sunday after Sunday devote their time and talents to the uplift of mankind, laying up for themselves treasures in Heaven, to be enjoyed forever in a land of pure delight.

Many organizations have endorsed the Go-To-Sunday-School movement, including the Court of Appeals, whose members sign a manifesto of approval, which appears in another part of this paper, and urge that May 6th may prove the beginning of a new era in Sunday school work in Kentucky. Let everybody make it a point to attend next Sunday. A cordial welcome awaits you and we are sure it will prove the beginning of love for and consecration to the glorious work.

The report of the U. S. Steel Corporation just issued shows a net profit for the first three months of this year to be \$133,121,018, the largest by far for a like period in its history. In addition to the usual dividend, which is paid quarterly, an extra three per cent. was declared. On the basis of this report the earnings on the common stock is at the rate of \$72 per share of \$100. President Gary announced that the company would subscribe \$5,000,000 to the government one year certificate in indebtedness, pay now its income tax of \$5,600,000, not due until June 15th, and subscribe \$50,000 for the Young Men's Christian Association of the army and the navy. This has been a wonderful time for the accumulation of fortune by these in position to take advantage of it, but with the high cost of everything necessary for life, it is proving a tough experience for the poor. How some people stand up under the pressure is marvelous.

The Interior Journal regrets that its friend, Congressman Helm, voted against President Wilson's selective service plan for building up an army, but believes that he did right as he saw right. The volunteer plan sounds mighty good, but these times are too parlous and uncertain to await the pleasure of those who would defend Uncle Sam in the present crisis. We need an army, a big one and at once, and it strikes us that Mr. Wilson's plan was the only one by which we could get what is absolutely necessary. Kentucky Congressmen voted six to five for the President's measure, and on the final passage of the bill all voted for it.

ROBINSON'S

President Wilson makes it very plain that all of us can contribute to the triumph of democracy and the early conclusion of a victorious war with Germany by doing all in our power to conserve and promote production. The man who puts forth his full energy to raise food for the army is just as necessary as those who bare their breasts to bullets and every man should do his part. Let there be no slackers in this hour of the country's need.

J. C. Alcock, editor of the Jeffersonian, published at Jeffersonstown, Jefferson county, is a candidate for Representative from the 44th Legislative district, subject to the action of the democratic party, and his newspaper friends are all hoping that he will win with votes to spare. Mr. Alcock is excellently equipped for the office he seeks and will make his constituency a satisfactory Representative if given the opportunity.

Good sometimes comes out of evil. Awful as war is, it will hasten the much desired time when liquor and its manufacture will be put under the ban. All of the countries in more or less degree have adopted prohibition as a means of conserving grain and reducing an evil.

With hogs at \$16.50 a hundred pounds they have gotten so far in the gentleman class that it will soon be a compenmt to refer to a man as a hog, instead of disgust, as formerly.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All druggists, 75c.

JOB-PLANT DOING WELL.

The new owners of the Interior Journal are very thankful to a liberal patronage for helping its job printing department break its own record last month. During April it turned out 141 jobs. Included in this number were 100,000 bank checks, which takes a little time to print, as printers well know. Everything from a calling card to a 22x 28 1-2 two-colored poster was in the work turned out, and the best part of the business is, there wasn't a single kick on either the printing or the price of it. The heads of the I. J. are naturally very proud of the accomplishment, as well as deeply grateful to the many who gave the work to them. With the best and most willing force in the country, it is not surprising that the I. J. does lots of work, but it certainly is gratifying to know that it does.

KILLED BY ELECTRICITY.

News comes from Indianapolis that Walter Ferguson, aged 40, was killed there by electricity while helping erect a steel pole for an electric company. Mr. Ferguson was a nephew of Mrs. W. D. Welburn, of this city, and is survived by his wife and two children. His mother, Mrs. J. D. Sharpe, had just arrived from Stanford, where she had been to attend the burial of her father, Mr. J. H. Pruitt, when informed of the death of her son. Mr. G. B. Pruitt, of Moreland, accompanied Mrs. Sharpe home and was there at the burial of his nephew.

COINING MONEY FROM CHICKS

Mrs. R. L. Berry, of Hustonville, sold during the month of April, eggs from her S. C. B. Leghorn hens to the amount of \$134, and besides, used \$16's worth. The feed for these hens cost \$36 and skimmed milk \$6, leaving a net profit for the month, of \$108. Who can beat that?

BIG PATRIOTIC RALLY

The patriotic rally held at Lancaster Monday afternoon was largely attended and much enthusiasm was shown. The principal speakers were Edwin P. Morrow, of Somerset, and Judge L. L. Walker and Attorney J. E. Robinson, of Lancaster.

John Owsley Reid and Harry Carter, measles sufferers, are doing pretty well.

HAIL FELL MONDAY

Hail fell in Stanford Monday, but not in proportions to do damage. In Hubble section hail as large as bird eggs fell, doing damage to gardens and fruit trees. It was especially severe at A. P. Sloan's, where his early vegetables were ruined. Heavy hail fell between this city and Danville.

COOLER WEATHER.

Cooler weather has followed the good rains of the past several days. What is needed now is warm sunshine and when it comes vegetation is going to fairly pop. The wheat crop and grass were both greatly benefitted by the downpours.

K. C. Smith, for 35 years chief of police of Harrodsburg, is in a critical condition from heart disease and acute indigestion. Hope for his recovery has been abandoned. He was the breeder and owner of the famous racehorse, Bonnie Wilmore, the only horse that ever won a heat from Nancy Hanks.

The wedding of H. D. Palmore to Miss Ruby Alexander, principal and teacher, respectively, of the Glasgow High School, occurred in Louisville Monday.

In addition to loans to France and Italy totaling between \$200,000,000 and \$300,000,000 the United States will soon make a loan to Belgium.

Lieut. Gov. James D. Black spoke at Barbourville Monday, at a patriotic demonstration and flag-raising.

Fire, which started Monday night in F. M. Breeding's livery stable, at Glasgow, destroyed \$50,000 worth of property.

BROUGHT COLOR BACK TO CHEEKS

Mother Tells What Tanlac Did For Her Daughter.

SEEMS LIKE DIFFERENT GIRL

"This is the first winter in a long time that my daughter Louise has been entirely well, and I believe Tanlac is responsible for it," said Mrs. J. Y. Kirkpatrick, Fifteenth and High streets, Paris. She says:

"My daughter Louise was always delicate and every winter would have attacks of bronchial trouble. Her appetite was poor, and she was troubled with constipation. We would have to call a physician several times through the winter until we got Tanlac. She had a cough much of the time and was pale, nervous and irritable. We read a good many testimonials of Tanlac and finally got a bottle. It helped her right away. We noticed that she ate more.

"She took in all five bottles, also the tablets. She had no sick spell all the rest of the winter. This fall she commenced to run down again. We got another bottle, and this winter she has taken three and has had no sick spell at all. She seems to be built up. Her appetite is very good, and she is not nervous. She seems like a different child in that respect. We feel that the medicine is expensive, but still in the long run it is the best, as this is the first winter that we have not had to call a physician. Her color is good now, and she seems to be all right."

Tanlac is sold exclusively in Stanford at The Penny Drug Store, E. R. Coleman, Proprietor.

Tanlac can now be obtained in following nearby cities: Moreland, Abraham Minks; Hustonville, Adams Bros.; McKinney, True & Co.; Ellisburg, Joe McWilliams; Middleburg, W. C. Bryant; Crab Orchard, Lyne Bros.; Brodhead, John Robins; Lancaster, R. E. McRoberts; Bee Lick, J. Reynolds & Son; Waynesburg, W. A. Horton.

HOW BLUE JACKET LEARNS USES OF PUBLICITY

No matter how small the town, even so diminutive from a standpoint of population that it has been left off the printed maps and no matter what its daily or weekly newspaper is, whether it is printed on a four deck

**Sloan's

KILLS PAIN

cylinder or a creaky and antiquated Washington hand press, it still is the proud possessor of a traveling correspondent who is in all parts of the world. He keeps in touch with his home town paper, not through thrilling stories or events that are making history, but more specifically with the little items of interest that are just what the folks at home want to read when the carrier leaves the daily paper at the door or Uncle Sam's post leaves the weekly at the R. F. D. box by the roadside.

The sailor of today is always in touch with his home town paper. He may be blissfully unconscious of the fact that he is a travelling correspondent but he is just the same; for the Navy Department, through its Publicity Bureau, has made "Jack" a gatherer and a chronicler of news that goes back to the boys in the old town like a letter to an old pal.

Every ship of the Navy carries blanks that are already to be filled up with the little items of interest that are so much of an event in the life of a Navy man and to those in the town back behind the hills. He may have excelled in some particular study or work of the ship and been commended; he may have made a fine showing at target practice and he may, as a firing pointer, have won the coveted Navy "E," which means a whole lot to the man behind the gun. When this does happen a blank with his name, next of his kin and his home town is filled out with an accompanying memorandum, something like this:

"This man was the firing pointer on No. 4, 3" gun of this ship, which made the highest score this year in the Navy; four shots; four hits in 19 1-2 seconds. This man was awarded the first prize and will be awarded the Navy "E" which is a decoration given only to gun pointers making a score of 7.78 hits per gun per minute. His score was 12.35."

If the proud sailor man has a photograph, and it is ten to one that he has, it is sent along. Then as the days go by the memorandum gets to the Navy Publicity Bureau in New York City and from there it is sent out in a newspaper style to all the papers in his home town and vicinity, and when he comes home he finds out that publicity has suddenly thrown him right into the middle of fame.

The Publicity Bureau has another idea in mind while getting the news from these first line of defense men into print. The more that is printed of the boys and what they are doing, and of their triumphs in peace or their loyalty and service in war, the more Young America is attracted to the life of a sailor and the more quickly is he made to realize his duty in responding to his Country's call.

The Publicity Bureau of the Navy not only disseminates news of the service but it operates one of the largest and best equipped printing offices in New York where all of its posters and literature are printed.

PRICES HAVE BEEN HIGHER

According to figures published in the monthly commercial review of the City National bank of New York, the present high prices of wheat and flour are by no means the highest known in this country. The review credits C. B. Cole, a miller who has been in business since 1839, as saying: "In March, 1867, we paid \$3.75 a bushel for wheat and it sold in St. Louis for \$3.85. This was in depreciated paper money, but I have not the value of gold at that time. In March 1877, wheat sold in St. Louis for \$2.20. The price of gold was then 1.04 1-4. In 1867, flour sold for \$19 a barrel at the mill and the same flour retailed in Boston, at from \$24 to \$25 barrel. In March, 1867, the lowest quotation of the gold dollar in paper currency was \$1.33 1-2, which would make wheat worth about \$2.70 gold."

Parks & Hendren Company's store at Danville was burglarized and \$75 to \$100 worth of gents' furnishings stolen.

Made Her Well.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

—Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

"DIXIE" WILL STIR THEM

When the famous Brooks concert band strikes up the stirring air of "Dixie" at the big chautauqua tent during its engagement here May 27 to 31, inclusive, it will be very doubtful whether the big canvas auditorium will be strong enough to hold the enthusiasm which will be shown by our citizens. There has never been a time when the good old tune did not provoke an outburst of applause wherever it has been played, and this is especially so in this section, where the song is loved for the sentiment attached to it. That is why the Lincoln chautauqua tent may not be strong enough to hold the demonstration when the Brooks band concert plays, because this noted musical organization has the reputation of playing the grand old tune as it has never been played before. Musical critics and laymen who have enjoyed the Brooks band concerts say that there seems to be something about Brooks' "Dixie" that enriches the sentiment and stirs the very soul, arousing national pride and creating a noble sense of patriotism and loyalty to country. While all this is true of "Dixie" played by anybody, it is said that the Brooks band has created a sensation with their wonderful rendition of the air, especially since the nation

entered the great war.

The Brooks concert band is a handsomely uniformed organization, and the programs will be varied, ranging from rag time to grand opera, with liberal patriotic numbers and novelties to please all. The Lincoln chautauquas are doing their southern circuits a real favor by presenting the noted band on their regular programs. Solos, duets and other especially enjoyable numbers will be featured in addition to the concert selections. The organization appears as an imposing band in the afternoon, and as a complete orchestra in the evening.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic. Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

Mrs. Hugh M. Noe's fine sorrel mare dropped a male mule colt the other night.
